

**Dr. B R Ambedkar Center for Biomedical Research  
University of Delhi, Delhi 110007**

A walk in interview is scheduled on November 27<sup>th</sup> (Monday) 2017 at 9:30 AM for appointment of personnel in Government of India sponsored projects as per details below:

<b>Name and number of Post</b>	<b>Name of Project and Principal Investigator</b>	<b>Funding Agency</b>	<b>Consolidated Salary Per Month</b>	<b>Tenure*</b>
Research Associate (1)	Deciphering the role of calcium homeostasis in modulating T cell dynamics during Mycobacterium tuberculosis infection <b>PI: Prof. K. Natarajan</b>	Department of Biotechnology, Government of India	Rs.52000/-	Up to July 2018
Research Associate (1)	Delineating the mechanism of transcriptional regulation by chromatin remodeling protein, INO80; Identification and characterization of the protein complexes <b>PI: Prof. Vani Brahmachari</b>	SERB (Science and Engineering Research Board)	Rs.36,000/- + HRA	One year after appointment
Laboratory Assistant (1)	Deciphering the role of calcium homeostasis in modulating T cell dynamics during Mycobacterium tuberculosis infection <b>PI: Prof. K. Natarajan</b>	Department of Biotechnology, Government of India	Rs. 15000/-	Up to July 2018
Laboratory Helper(1)	Delineating the mechanism of transcriptional regulation by chromatin remodeling protein, INO80; Identification and characterization of the protein	SERB (Science and Engineering Research Board)	Rs.10000/-	Six months (extendable)

	complexes <b>PI: Prof. Vani Brahmachari</b>			
--	--	--	--	--

\*The tenure may be extended subject to performance and availability of funds.

**Essential Qualifications for Research Associate:** Ph.D. from Government of India recognized Institution/University in Biotechnology/Life Sciences/Zoology/Biomedical Sciences or a related discipline.

**Essential Qualifications for Laboratory Assistant:** Class 12<sup>th</sup> pass with Science Subjects with 50% Marks

**Essential Qualifications for Laboratory Helper:** Class 10<sup>th</sup> pass

**Desirable qualification for Research Associate**

**Project I:** Deciphering the role of calcium homeostasis .....T cell dynamics .....Mycobacterium tuberculosis infection:  
Experience in handling virulent Mycobacterium tuberculosis strains, patient samples and a thorough knowledge of flow cytometry especially sorting of cell subsets.

**Project II:** Delineating the mechanism of transcriptional regulation ....INO80; Identification and characterization of the protein complexes.  
Experience in proteomics and ChIP (Chromatin Immuno-precipitation), human cell culture handling. Knowledge of Drosophila genetics is desirable.

**Date of Interview: November 27<sup>th</sup> (Monday) 2017**

**Time of Interview: 9:30 AM**

**Venue: Dr. B R Ambedkar Center for Biomedical Research, University of Delhi, Delhi 110007.**

**Please Note: Candidates reporting after 10:30 AM will not be allowed to appear before the selection committee.**

**Director**
