Mentor Mentee Program (Student counseling system)

Vision of the Program

The program aims at providing students with guidance, support and a positive learning environment by bridging the gap between students and the Institution. It provides opportunities for students to benefit from the rich experience, expertise and wisdom of their teachers. Constant interaction with their mentors will enable students to develop new skills, sharpen existing ones and equip themselves to pursue suitable career goals and most importantly managing stress. This system will prove particularly useful to outstation students who have to cope with life in a metropolis without familial support systems. Nurturing a healthy and vibrant mentor-mentee relationship will enrich their life at ACBR in significant ways and will transform the Centre into a cradle of excellence.

Key Roles and Responsibilities of Mentors:

Mentors play a crucial role in guiding and supporting the development of their mentees.

- Foster a trusting and confidential relationship with the mentee by gaining their trust and open communication.
- Clearly outline the objectives and expectations of the mentorship relationship by ensuring that both mentor and mentee have a shared understanding of their roles and responsibilities.
- Providing guidance on academic matters, course selection, and study strategies and offer insights into the mentee's chosen field, sharing experiences and advice on career development.
- Facilitating introductions to relevant professionals and industries contacts and helping mentees in developing networking skills
- Assessing the mentee's strengths and weaknesses to tailor guidance and support through providing constructive feedback to help the mentee improve their skills and performance.
- Helping the mentee identify and navigate challenges, providing guidance and alternative perspectives.
- Fostering independent thinking and problem-solving skills in the mentee.
- Bridging Communication between students and the administration.
- Maintain confidentiality regarding the mentee's personal and academic information.

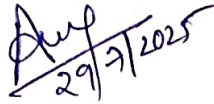

Key Roles and Responsibilities of Mentees:

- Seeking guidance when facing academic, career, or personal challenges.
- Mentees should respect their mentors and the mentoring relationship.

Details of the Program

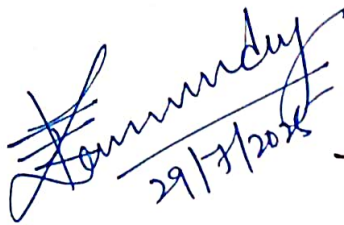

A successful mentor-mentee relationship is built on mutual respect, trust, and a shared commitment to the mentee's growth and success.

- For this purpose: Mentees shall be assigned to the mentors right from the first year of the programme.
- The mentees preferably be attached to the same mentor for the entire duration of the first year of the programme.
- Mentors should meet the mentees once every month, enquire about the difficulties they might be facing and assess their academic progress.
- The mentor will function as a bridge between students and the administration
- Mentors will also actively motivate mentees to take part in curricular and extracurricular activities and help shape their career goals.
- The mentor shall meet the mentees regularly and record the outcome of the meeting in the attendance register.
