

FBR 2014

14-16 April

9th Symposium on Frontiers in Biomedical Research

First Announcement

INTRODUCTION

Dr. B. R. Ambedkar Center for Biomedical Research, University of Delhi, INIDA, is organizing its **9th annual symposium in frontiers in Biomedical Research (FBR - 2014)** at Conference Hall, Opp. Botany Department, University of Delhi from April 14th - April 16th, 2014. The meeting focuses on the advancement and exploration of the knowledge in modern trends in Biomedical Sciences viz. computational strategies, medicinal and natural product approaches to drug design and human disease (Communicable & non communicable) in the post genomic era.

Dr. B. R. Ambedkar Center for Biomedical Research (ACBR) is dedicated to research and postgraduate education in biomedical sciences. The Institute serves as a prototype of postdoctoral training where young scientists gain the skills and insights into their chosen fields at the start of their research career.

This annual conference provides a great opportunity to budding scientists to share the knowledge and plan future strategies for modern drug research by intellectual interaction with the elite scientist of the country. It is anticipated that the conference would unwrap new perspectives for research in biomedical sciences. We welcome you and your colleagues to this meeting and invite your participation in the symposium.
